

# INTRODUCTION

Our range of Dental Air Compressors & Suction products are detailed in this price list. They offer the best dental solutions from a single surgery to large centralised systems. We work closely with our key partners EKOM to ensure the dental network is provided with the best equipment.

EKOM are one of the leading suppliers of medical & dental compressors in Europe. Supplying world-wide, they have an enviable reputation for quality & reliability.

## KEY POINTS IN CHOOSING EKOM:

- Oil free compressor 100% duty
- 5-year warranty
- Supplied with dryers to meet HTM 20/22 & HTM 02/01 & CQC requirements
- Bacteria free, dry air for better handpiece life
- Bonding & an improved patient experience
- Easy access for service engineers
- 10 + years compressor lifetime
- Flexible cabinet options for all models offering < 50 dB(A) noise level
- Compressors supplied from stock for next day delivery

**5 YEAR**  
WARRANTY

## ABOUT US:

We established AAG to support the dental network and provide a high-quality product that offers exceptional reliability for the dentist.

We have a strong network of dental dealers supplying the EKOM brand in the dental market. We offer full training and support to the dental dealer engineers and sales staff. If you would like training please contact our service team who would be happy to arrange.

### IN DEPTH KNOWLEDGE AND EXPERIENCE

We combine a wealth of knowledge stretching nearly 40 years with a dedicated work force to provide the customer the best possible experience.

### PROVIDING THE BEST QUALITY PRODUCTS

We work closely with our key partners, helping to develop a wide range of products covering our key markets. They have been carefully selected based on their high quality, reliability and fair price.

### UNRIVALLED CUSTOMER SUPPORT

We deliver exceptional customer service, from stocking compressor/parts for next day delivery to installation advice via facetime. We ensure your experience with us is hassle free, before, during and after the sale.

# BUYER'S GUIDE

Here you will find a very easy guide to help you identify which product you require:

| Product Name   | Options                             | No. of Chairs | Page No. |
|----------------|-------------------------------------|---------------|----------|
| DK50 10        | Cabinet (S)<br>Dryer (M)            | 1             | 4        |
| DK50 PLUS      | Cabinet (S)<br>Dryer – Mem/NPSL (M) | 1-2           | 5        |
| DK50 2V        | Cabinet (S)<br>Dryer – Mem/NPSL (M) | 2-3           | 6        |
| DK50 2V/50     | Cabinet (S)<br>Dryer (M)            | 4             | 7        |
| DK50 4VR/50    | Cabinet (S)<br>Dryer (M)            | 6             | 8        |
| DK50 2X2V/110  | Cabinet (S)<br>Dryer (M)            | 8             | 9        |
| DK50 2X4VR/110 | Cabinet (S)<br>Dryer (M)            | 8-16          | 10       |
| Tower Systems  | All Options                         | 16+           | 11       |
| Aspina DO M    | Mobile Suction                      | 1             | 12       |

| Service Type          | What's Included   |
|-----------------------|---|
| Intermediate Service  | The Intermediate service kits will include all filters that are required to be replaced every year as a minimum.  |
| Comprehensive Service | The comprehensive service kits will include all filters as well as valve plates, con rods and bearings. (this is an overhaul service, required based on hours or time period) |
| Dryer Service         | The Dryer service kits include replacement columns and gasket seals, failing to service the dryer will jeopardise the air quality.  |

# CENTRALISED SYSTEMS - EKOM TOWER

(16+ DENTAL CHAIRS)

The EKOM towers are custom built centralised systems. We can help design a system that fits your demand perfectly.

You can select dryer type, output flow and sound proof options.

The towers have independently running pumps that can adjust depending on the demand. It has a Siemens control panel that can monitor all aspects of the tower, from pressure regulation to dew point. This can all be viewed via the LED touch screen display or remotely via BMS system.

These units are available with 2 dryer options. Refrigeration will provide a -20 dew point (+3 pressure dewpoint), compared to the NPSL dryer which will deliver a -40 pressure dewpoint.

Adding the soundproof box will reduce the decibel level to 72dB(A). It has a temperature controlled cooling system within the cabinet to help the pumps run at optimum temperature.

HTM 20/22 & HTM 02/01 COMPLIANT
